The 10 Biggest Gold Owners in the World

4% of the World Controls 12.6% of the Gold

By Luke Burgess

With gold prices getting ready to soar; we've decided to find out who owns the most bullion in the world.

It's no surprise that governments, central banks, and investment funds are the world's largest holders of gold reserves. These organizations know gold is the ultimate store of value that protects against inflation and offers a safe haven during times of economic and geopolitical turmoil.

To find out who owns the most gold in the world, we referred to data from the International Monetary Fund's International Financial Statistics Report.

Rank	Owner	Tonnes	Share of Foreign Reserves
10	Netherlands	612.5	61.4%

The Netherland central bank, De Nederlandsche Bank, oversees the Dutch national finances, including the country's 612.5 tonnes of gold reserves. The Dutch gold is currently worth over \$20 billion and accounts for 61.4% of the country's foreign reserves.

Rank	Owner	Tonnes	Share of Foreign Reserves
9	Japan	765.2	2.1%

Although Japan is the ninth largest gold owner in the world, its 765.2 tonnes of the yellow metal account for just 2.1% of the island nation's total foreign reserves. Managed by the Bank of Japan, the country's gold reserves would fetch approximately \$25.4 billion on the open market.

The 10 Biggest Gold Owners in the World

Rank	Owner	Tonnes	Share of Foreign Reserves
8	Switzerland	1040.1	37.1%

Conducting Switzerland's monetary policy is the Swiss National Bank, which oversees the country's 1,040.1 tonnes of gold. The gold is believed to be stored in huge underground vaults near the federal Parliament building in Berne, but the Swiss National Bank treats the location of the gold reserves as a secret. With the world's eighth largest reserve of the yellow metal, Switzerland's stockpile would fetch approximately \$34.5 billion in today's gold market, accounting for 37.1% of the country's foreign re-

serves.

Rank	Owner	Tonnes	Share of Foreign Reserves
7	China	1054.0	1.8

The world's most populous country also has the world's seventh largest gold reserve. With a population of 1.33 billion, the country holds about \$26 worth of gold per person, worth a total of almost \$35 billion. The Chinese gold accounts for only 1.8% of the nation's total foreign reserves.

Rank	Owner	Tonnes	Share of Foreign Reserves
6	SPDR Gold Shares ETF	1,120.6	n/a

Originally listed on the New York Stock Exchange in 2004, SPDR Gold Shares has been one of the fastest growing ETFs in the world. SPDR Gold Shares now trade on the Singapore Stock Exchange as well as the Tokyo Stock Exchange. All of the Trust's gold is held by the Custodian, HSBC Bank, in their London vault — except when the gold has been allocated in the vault of a sub-custodian.

The 10 Biggest Gold Owners in the World

Rank	Owner	Tonnes	Share of Foreign Reserves
5	France	2,450.7	72.6%

The Banque De France is responsible for France's gold holdings, which have been reported at about 2,450.7 tonnes by the International Monetary Fund. With the fifth largest gold reserve in the world, France's amount to about \$81.3 billion, accounting for 72.6% percent of the country's foreign reserves — the second highest percentage of gold in foreign reserves on our top ten list.

Rank	Owner	Tonnes	Share of Foreign Reserves
4	Italy	2,451.8	66.5%

The Italian National Bank, Banca D'Italia, manages the country's large gold holdings, which account for 66.5% of its foreign reserves. With approximately 2,451.8 tonnes of gold in reserve, Italy's holdings are very close to France's and are also worth approximately \$81.3 billion at current prices.

Rank	Owner	Tonnes	Share of Foreign Reserves
3	International Monetary Fund	3,217.3	n/a

The International Monetary Fund oversees the global financial system by following the macroeconomic policies of its 185 member countries. It is an organization formed to stabilize international exchange rates and facilitate development and offers highly leveraged loans, mainly to poorer countries.

The IMF's gold policies have changed in the last quarter century, but the reserves remain in place for use in stabilizing international markets and aiding national economies. The IMF's official policy on gold as it is stated on the organization's website is governed by the following principles:

As an undervalued asset held by the IMF, gold provides fundamental strength to its balance sheet. Any mobilization of IMF gold should avoid weakening its overall financial position.

The IMF should continue to hold a relatively large amount of gold among its assets, not only for prudential reasons, but also to meet unforeseen contingencies.

The IMF has a systemic responsibility to avoid causing disruptions to the functioning of the gold market.

Profits from any gold sales should be used whenever feasible to create an investment fund, of which only the income should be used.

The 10 Biggest Gold Owners in the World

Rank	Owner	Tonnes	Share of Foreign Reserves
2	Germany	3,412.6	69.5%

The Deutsche Bundesbank, Germany's central bank, is the most influential member of the European System of Central Banks. With a hefty 3,412.6 tonnes of gold reserves valued at about \$113.2 billion at current prices, Germany's gold accounts for almost 70% of the country's total foreign reserves.

Rank	Owner	Tonnes	Share of Foreign Reserves
1	United States	8,133.5	78.3%

The United States holds the largest gold reserve in the world; with 8,133.5 tonnes, U.S. gold holdings are worth approximately \$269.67 billion. This massive gold reserve represents about .9436 an ounce for every person living in the country.

The majority of the American gold is reported to be held in the world-famous United States Bullion Depository in Fort Knox, Kentucky, although there is some controversy that suggests otherwise. The remainder of the U.S. reserves are held at the Philadelphia Mint, the Denver Mint, the West Point Bullion Depository, and the San Francisco Assay Office. The top ten largest owners of gold in the world are reported to control a total of 24,258.3 tonnes, or over 855 million ounces. At current spot prices, this gold would be worth approximately \$804.35 billion and represents about 15.4% of

Who Is the Man Behind This \$100 Million Acquisition?

Written by David McGhie

Largest Gold Refinery in the Middle East changes hands in Dubai

Firstly, I would like to give a great thank you to Mr William McKeag (The MAN), for the warm welcome I received in Dubai.

He also brought me into the fold of his TLI Global Team.

Mr William Mckeag is a extremely remarkable person, with excellent interpersonal skills, he is able to immediately make you feel at ease; whilst at the same time, vetting you throughout the conversation. During a conversation, where we exchanged small talk we discovered we had a very special mutual friend in common. A friend, in which I have known for over twenty years, through business deals

Bill has a vast knowledge in the Gold and Diamond industry, He also has the temperament and leadership that is required to remain sane in this insane and volatile industry.

During the short period of time with Mr Mckeag; I discovered his enjoyment for life is equally combined with the pressure of work. A successful work/life balance is difficult to achieve for successful people, running Major Companies, such as TLI Global. In a word, Bill knows how to talk the talk and walk the walk, always thinking about the course (apparently, he's also a good golf player).

Over the past few months, First Edge Ltd and TLI Global have been in very serious talks, relating to transactions, concerning African Countries. The talks were held with curtain

I would also like to thank TLI Global, for taking me on their private jet, where we travelled into the various African Countries, with ease (better than travelling first class). I enjoyed the experience, along with the excellent food, wine and having the option to smoke.

(William Mckeag)

“Ere David, don't forget to pull the chain on the B-Day, I wanna use it next?”

Procedure for CIF to London

From: Angeline Maynard
To: Client
Subject: CIF to London

Dear Client

PRE-ARRIVAL INFORMATION AND PROCEDURES

Before the shipment arrives to London the Seller should notify the First Edge Team of departure date and other related documents please see (Required Documents shown below) this is to be dispatched and supplied by Email

The Clear customs and pay 20% VAT also pay for security to Refinery and transport your Rep to Refinery/pay smelting and assay at Refinery then pay two days hotel accommodation for your Rep.

The smelting assay process will take no longer than 24 to 48 hours with payment in full to the seller for the total shipment immediately thereafter.

This in itself is of significant financial benefit to Gold Sellers when compared to the present sales structure. By accepting this format you will benefit from rising Au Gold prices going forward.

It is important to bear in mind that you will ship each consignment on CIF basis, which in itself guarantees that ownership of the gold does not pass from Seller to Buyer until payment in full has been effected.

The Refinery is Government Certified and of excellent financial standing.

The obvious benefit of trading directly with the Refinery on clearly defined terms is to build a trading relationship based on mutual trust and integrity.

We are at your disposal should you require any further clarity that we are the only UK company that will pay for the all the transaction stated at the port of delivery.

First Edge Ltd will not make any Advance Payment other than Full Payment after Full Assay

This does not mean we are not prepared to negotiate any added payment cost after the gold has been assayed, but no upfront fee and no advances also no diplomat fee or financier cost or anything relating where First Edge has to pay upfront fee once the gold has arrived in London and before the assay of the gold has been completed.

Welcome To NOTICE-BOARD

Deal of the Month

First-Edge has Chosen this to be the Deal of the Month. **Deal Alert**

Please contact First Edge if you think your deal should be deal of the month (info@first-edge.co.uk)

This is an invitation to have your buyer or mandate talk with the seller mandate. Immediately below are the required procedures to have your buyer or mandate speak with the seller mandate.

Great Pricing, Reasonable Procedures, CIF & FOB, Attractive Commissions and most importantly they are reliable. They do not ask the buyer for any fees or upfront money for anything! There are no advance, registration, notarization, legalization, transportation, pipeline or environmental fees. Once the buyer qualifies and shows that they have the financial capability to pay for the fuel once it is delivered, the seller places the order with the refineries, takes title and pays for the fuel with their own money. The irrevocable, confirmed, auto revolving Letter of Credit or BG payable 100% at sight against shipping documents is used to pay for each monthly shipment and is the key to dealing with this seller. This Seller will not provide their information until they know that the buyer is serious and financially capable. Once the buyer provides his LOI agreeing to the seller's terms and conditions the buyer and or his mandate can have a call with the seller mandate if they request it. After the call the buyer will need to proceed to step #1 in the procedures. The name of the seller will be given to the buyer during the call for him to place on the ICPO. Only the buyer and or his mandate will be allowed on the call and Ralph will initiate the call and keep the lead intermediary informed of how things are proceeding. After the call, the required documents will need to be sent to Ralph to check for completeness and correctness prior to being sent to the seller mandate. Please assist, me in streamlining this by sending your Buyers LOI in the format provided. Any changes to this will not be acceptable and will only waste everybody's time!

Shown below in **Bold/Black** is some more information from this seller, which may be helpful to you. We have ATTACHED the needed intermediary NCNDA LOI, ICPO, NCNDA-IMFPA templates to be used. We have further clarified the following items below;

- 1. Procedure: Buyer sends LOI. Buyer can have call with Seller mandate after Ralph approves the LOI. If any additional information is needed for Ralph to submit LOI he will request it directly from the Buyer. Ralph will require a signed NCNDA with all intermediaries and will require one of the intermediaries to be nominated as lead intermediary with whom he will communicate with. This is a separate NCNDA than the NCNDA-IMFPA. Both are attached.**
- 2. Buyer issues BCL and ICPO using supplied template. Along with the BCL & ICPO Ralph needs, the completed NCNDA-IMFPA with Buyer, Buyer Mandate, and lead intermediary information completed and signed. Once all paperwork is complete, Ralph will submit to seller mandate.**
- 3. Seller issues official FCO. From this point forward the buyer and seller will be in direct contact.**
- 4. Commissions: With this seller the entire Buy side is open. Commissions will be paid by the buyer to the buy side as follows; Shown is the split on \$10 and \$5 fuels, the % always remains the same.**
D2 & Mazut - The Buy side has a total of \$10 which will be split as follows;
1/3 or \$3.34/MT to the Buyer Mandate, (group 1 see ncnda) OUP 1) MANDATEBUYER SIDE (GROUP 1) MAND
1/3 or \$3.33/MT to you and your group (group 3 see ncnda)
1/3 or \$3.33/MT to me and my group (group 2 see ncnda)(Closed)
JP54 - The Buy side has a total of \$5 which will be split as follows;
1/3 or \$ 1.67 /MT to the Buyer Mandate, (group 1 see ncnda)
1/3 or \$ 1.67 to you and your group (group 3 see ncnda)
1/3 or \$ 1.66 to me and my group (group 2 see ncnda)(Closed)
