## What Makes a good Broker / Agent / Intermediary

We have been working with some of the best Broker / Agent / Intermediary around the world for quite a while our database is full of some good Broker / Agent / Intermediary who take great pride in what ever project their doing and these are the people who we have great pride in doing work with for more than one reason.

### How can you tell a good Broker / Agent / Intermediary

1. In most cases its very easy to tell, all you need is to have a 15 minute conversation by asking them some really standard specific questions with them , then you would know. A good Broker has a small and trusted network of buyers and sellers which has been developed over years of doing real business with.

### Buyer Mandate

Some say they are buyer or seller mandate? do not send any information about your client to the buyer mandate until your sure of them, To find out if they are a mandate just ask for currents and dated mandate papers once you have received the letter, you must do your checks and don't just accept them as a real mandate until your satisfied with the check s, we have received many that states they are but they are not.

If you want to make sure that who ever your releasing the information of your product to is capable of making the deal happen ? you can ask the Broker / Agent / Intermediary how far are they from the Buyer/Seller and when was the last they had completed and on what product, this does help.

### A Good Broker

A good Broker / Agent / Intermediary can represent the Buyer & Seller in 80% of what ever transactions is being carried out until the completion of the transaction.

Most of all a Good Broker must keep all the people connected on both side's of the deal updated immediately, and make sure he's on top of the deal, from time to time this can be annoying to the other people that is being chased but so be it, nobody complains when they get paid.

### How can you tell a Bad Broker / Agent / Intermediary

Some Broker / Agent / Intermediary cannot help them selves in trying to cut out other's in in their nature, which is GREED or in most cases they think their smarter than everyone else around which a shame in most cases because they could do better if they would be honest and trustworthy.

Some Broker will open their heart out to you and tell you all their problems make you feel theirs something real about them this could be true in most cases and this could also be a fatal move in other cases especially when you

## What Makes a good Broker / Agent / Intermediary

### How can you tell a Bad Broker / Agent / Intermediary

Be very careful Some Broker / Agent / Intermediary will send out phoney contracts and some will do anything in their means to get to your seller or buyer, always try to due your check on who ever you get introduced to.

A Bad Broker / Agent / Intermediary is always a deal killer in most cases they don't know what there doing and wont take the back seat on the deal.

The worse Bad Broker / Agent / Intermediary is the bare face liars

You should never let a deal run for to long please remember product's don't and wont sit and wait for anyone.

PLEASE REMEMBER BAD BROKER'S IS A WAST OF TIME & ENERGY AND DEAL KILLERS FOR EVERYONE, THEY MOVE AROUND THE NET LIKE A VIRUS.

### Is there room for improvement?

In this industry there is always room for improvement, there are a lot of people who we engage with that has their own policy on doing deal some black list buyer or seller's if they cant perform on the 12th hour of a deal, but this also depends on the circumstance on why.

This industry can become very hazardous to the unknown Bad Broker / Agent / Intermediary where people will just put the phone down or block them from skype which is commonly used these day.

There are chats rooms that Broker / Agent / Intermediary joint to source products but that can be hazardous in more ways than one, it can become useful for Broker / Agent / Intermediary who has a small data base of contacts.

First Edge Ltd is always trying to help people who is new to the industry, and try to show them where the Pits falls Are.

FIRST EDGE has a high Rate of blocking Broker / Agent / Intermediary each month, this is due to discrepancies that has been shown by the Broker / Agent / Intermediary.

Please remember that its not our wish to block people but our buy & seller must be protected, at all time's.

## Why is there so many Cowboys Broker / Agent / Intermediary

### To many Cowboys?

Most people who has made this industry into a daily business and has worked very hard to become a regular Broker / Agent / Intermediary can find it very difficult to secure deal because of a large amount of inexperienced people referring deal and not wanting to take a back seat, because of them not knowing who's who in the industry and is unable to do the necessary checks needed which should always be done when they are given a product.

Most of the time Cowboy Broker states that the product is real and its not for many reasons.

Cowboy on the and a train load of people behind them can make it very frustrating to complete deal because most of them thinks it unreasonable to get a finders fee and wants to have a regular monthly , decides been in this industry has found over the past 4 years an avalanche of new Trader has decided to become Broker / Agent / Intermediary , we at First Edge does not have any problem with new Broker / Agent / Intermediary, just as long as they state their experience to who ever they ore people coming into this industry than ever.

The main reason is due to the internet and skype and people telling them how easy it is to start trading at home which is a complete lie, most intermediary vanishes after a few months, when they realise they have a family to feed and all the deal that is showing on their seem to look good but on the 12 hour the deal falls through.

This is a standard occurrence in this industry especially in the Gold, Diamond and Fuel Sectors, many times a new intermediary will be circumvented because of the lack of knowledge he has in the industry.

Most people in the industry can tell how green entered system is these are the one who has a family y careful Some Broker / Agent / Intermediary will send out phoney contracts and some will do anything in their means to get to your seller or buyer, always try to due your check on who ever you get introduced to.

A Bad Broker / Agent / Intermediary is always a deal killer in most cases they don't know what there doing and wont take the back seat on the deal.

## How Gold is Produced

This chart illustrates the *general* steps in open-pit gold mining. The specifics of the process vary from mine to mine.

**(1)** Geologists use the latest technology, such as satellite surveys and geo-chemistry, to locate an ore deposit.

**(2)** Computers are used to design the mine, which requires precise and accurate measurement of the ore deposit. Construction begins following the lengthy process of receiving permits.

**(3)** Samples of ore are examined to determine grade and metallurgical characteristics. Broken rock is marked by type for efficient processing.

**(4)** Based on its metallurgical makeup, a dispatcher directs truck operators to deliver the ore to the correct processing location.

**(5a)**

**Low Grade Ore** is roughly broken into small chunks and placed on carefully lined pads where a dilute cyanide solution is distributed over the surface of the heap. The solution percolates through the heap and the cyanide dissolves the gold. This solution containing dissolved gold is then collected.

**(5a)**

**High Grade Ore** is delivered to a grinding mill, where the ore is pulverized to a powder. Depending on its metallurgical characteristics, the ore may be treated in one of three recovery circuits.

## How Gold is Produced

**Refractory ore** containing carbon is roasted to over 1,000 degrees Fahrenheit, burning off the sulfide and carbon. The product of this process is an oxide ore, which is routed to the leaching circuit.

**Oxide ore** is sent directly to the leaching circuit where cyanide dissolves the gold.

**Sulfide refractory ore** without carbon is oxidized in an autoclave to liberate the gold from sulfide minerals, then it is sent to the leaching circuit.

**Treated, high-grade ore is leached with cyanide.**

**(6)** The gold is absorbed (collected) out of solution onto activated carbon. The remaining cyanide solution is recycled.

**(7)** The gold loaded carbon is moved into a vessel where the gold is chemically stripped from the carbon which is then recycled.

## How Gold is Produced

(8) Gold is precipitated from the solution electrolytically or by chemical substitution.

The pure gold is then melted into dore' bars containing up to 90 percent gold. Dore' bars are then sent to an external refinery to be refined to bars of 999.9 parts per thousand pure gold.

**Reclamation** is a long-term investment made by every gold mining company, and can cost anywhere from \$2,000 to \$10,000 per acre. It is the cornerstone of every mine plan and is considered the first and last step of the mining process. (For more information on reclamation, see the Reclamation section of the NMA Website.)

\* For information on how gold is used in electronics, telecommunications and medicine, see NMA's gold uses page.

\* For statistical data on the economic impact of gold production, see NMA's Facts About Gold and Silver.

Gold is produced at some mines as part of the process of mining and refining other metals, such as copper. At those operations, gold is refined to an acceptable purity as part of the copper production process. At most gold mines, the gold "dore" is sent to a refinery for further processing.

First Edge Commodities is pleased be associated in Marketing 19 SPICED

We have done our own research and sampling of this New Rum Drink at 3 of London's Top Restaurants And Bars based in the City and have got better than expected review .

We was also informed in the middle of April that the 19 SPICE received a Spirit Business Award

The Spirits Business Awards was won in the spiced rum category.

First Edge is a direct agent of this product.

We can advise of the following. We are selling **under a major known Scottish Company** so it will be up to the purchaser to satisfy any and all customs requirements for their destination.

Please be aware this is a first come first serve area around the world and only for people who has an indebt knowledge in the liquor industry.

Once they have reviewed our price they will automatically know what deal there getting.

If you are interested in this New product please email: [dm@first-edge.co.uk](mailto:dm@first-edge.co.uk)

You will be sent 19 Spiced Break Down Cost once you have shown First edge that your company or the main contact on who you think would be prepared to look at this product has the capability to purchase.

Please also note we can supply 1lt, 50cl and 35cl bottles also and should be able to supply mixed cases if required. This must be discussed and agreed beforehand however as the quantity must justify the extra handling etc. The **70cl bottle** is the most popular and so that is why I am quoting you for that. If there is a specific market that requires other sizes we will of course try to satisfy the customers request. A stronger alcohol content may also be available subject to demand at 37% and 40% respectively.

This is no different to any other business than it is all about volume! There may be some manoeuvrability on the price but that will be strictly down to the volume ordered. Having said that we do of course want to work with people who knows about product's like this.

## FIRST EDGE LTD Verses SCAM.COM entered by (MAX RYKOV )

First we would like to state that we are not pursuing to discredit Scam.com, but we are concerned about the way their website is run and designed.

1. We still believed in innocent until found guilty . In the case when companies or people is shown to be on a scam website , and you can see there is no real reason to put real companies or people on sites and once they are shown on the site you cant remove them because they have no administration team that can check the accused information and once all has been shown they should come to a final decision on keeping or removing the report from there site.
2. So far we have sent more than 8 messages to scam.com to no avail , we are saddened it has now come to the point where we have no other alternative other than to publish Scam.Com in this months edition.
3. We have consulted our associates who was involved in the deal and the person who put us on the website and they have agreed that we can publish all the transactions that led to this us being posted on Scam.Com.
4. MAX RYKOV is a so called broker and is the Main architect of everything that has conspired to date.
5. MAX RYKOV even created a Law Firm who tried to Black Mail us wanting funds from us and once hes received it he would get the information taken off scam.com.
6. We also found out that the deal was completed successfully by another broker.

**Re: Beware of SEVEN AND SEVEN 1ST PETRO KIMYA SAN.**

Dear Sirs,

The statement on your website claiming, SEVEN AND SEVEN 1ST PETRO KIMYA SAN. VE and the persons named below are non-performers and that the offer concerned is a scam is totally untrue and slanderous to all concerned.

Anne Huttenga, David McGhie. G.J.A.Vleer, Ronit Fouzailov, Mr. Christakis Theocharous, Olurotimi Orija, MASOUMEH ABDI JAZIREN, Donna Ray

You should also have the professional courtesy to include the persons name making such accusations. We believe this untrue accusation was made by a Mr. Maxim Rykov a Russian living in Munchen, Germany, please confirm this was the case.

You can be assured action will be taken against this person and this is to be removed from your website immediately.

The system you use is open to abuse as you put such damaging allegations on your website without even trying to confirm if they are true or not.

All the people shown above have been successfully working in their respective fields for many years.

Just for your information the transaction referred to on your website was completed successfully in Israel this week

Your idea of showing up scams is excellent but you need to be sure of your facts before you print.

Please ensure this is removed from your website today with a note of retraction from you saying you were misled

Kindest regards,

Anne Huttenga, representing all those named above.

Dear Max, WITHOUT PREJUDICE

I have been requested to forward the attached to you for you to view and comment .

There are numerous errors in this supposed Attorneys letter,the most enlightening as to motive i feel is his statement late on in his letter.

If you wish, we can stop the investigation process and do not to send letter to Interpol, and do not provide them information related this case, and remove from the Internet warning information, in this case we are asking you within 10 working days to pay us for the work. At the moment, it is \$ 10 000.

Basically he states give me money and i will go away,how professional is that, especially when all the allegations are totally unfounded,untrue and without substance or any proof what so ever.

Look forward to your response by return.

## Scams Review for July and August 2012

Welcome to another 2 month dedicated to Evil Fraudsters and Scammers and how far these people would go to get their hands on your money.

We at First Edge have seen & knows all what there is to know about scammers.

We will can also supply you with the right procedures and put you in contact with the right sellers that can make you money.

90% of the time it come down to greed in losing your investment this means not looking at the down-side of the transaction and not speaking with professional companies like First Edge for advice.

First Edge can safely say it has never lost out on any Gold Deal that why we are getting more and more investors to transact deals for them.

Our procedures are water tight and we are always updating our procedures for our ourselves & our wide range of financiers.

The scams can range from a business claiming to be a gold bar, gold dust or gold coin supplier to an individual involved in the shipping, investment or sale of gold. Gold scams are common in West Africa but no country is immune. Scams can take place in any country.

In addition to the common gold scams on the internet, gold bars carry an increased risk of forgery due to their less stringent parameters for appearance. Larger bars have a greater volume that can enable a partial forgery using a tungsten-filled cavity, which is not easy to detect. Fake gold coins are common, and are usually made of gold-plated lead. The purity of a gold bar or coin can be expressed as a decimal figure ranging from 0 to 1, known as the millesimal fineness. Such ratings and quality inspections can be easily manipulated.

## The All New FE Petroleum News

### Explosion kills 39 at Venezuela refinery

An explosion tore through Venezuela's biggest refinery on Saturday, killing 39 people, wounding dozens more and halting operations at the facility in the worst accident to hit the OPEC nation's oil industry.

Energy Minister Rafael Ramirez told *Reuters* no production units at the Amuay refinery were affected and that there were no plans to halt exports, a sign that the incident will likely have little impact on fuel prices.

Photographs taken shortly after the pre-dawn blast showed wrecked vehicles, flattened fences and giant storage tanks buckling and crumpling as flames lit the night sky. A National Guard building in the area was shattered and officials said a 10-year-old child was among the dead.

A gas leak caused the explosion and many of those killed were National Guard troops who were providing security for the 645,000 barrel-per-day facility, Ramirez said, adding that the fire was under control.

Officials said 18 of the soldiers were confirmed dead along with 15 civilians, while six bodies still had to be identified.

## The All New FE Petroleum News

### Explosion kills 39 at Venezuela refinery

"There was a National Guard barracks near the explosion. ... The installation was too close to the operations," Ramirez told *Reuters* in an exclusive telephone interview, adding that production could resume at Amuay within two days at most.

"We need to boost production at other refineries and look for floating storage near the complex," he said.

The explosion follows repeated accidents and outages during the last decade across installations run by state oil company PDVSA that have limited output and crimped expansion plans.

Amuay has partially shut operations at least twice this year due to a small fire and the failure of a cooling unit.

Those problems have spurred accusations of inept management by the government of President Hugo Chavez, who is running for re-election on October 7. Acrimony over the explosion could spill into an already bitter campaign, but is unlikely to overtake larger political concerns such as crime and the economy.

"I want to convey the deepest pain that I've felt in my heart and soul since I started to get information about this tragedy," Chavez said in a phone call to state TV. He declared three days of mourning.

Venezuela has traditionally been a big supplier of fuel to the United States and the Caribbean, but refinery shutdowns have become so common that they rarely affect market prices.

Traders told *Reuters* the docks at the refinery were shut, and tankers were anchored off-shore waiting. They said this would cause delays to some of the country's exports.

The explosion broke windows at homes in the area, a peninsula in the Caribbean sea in western Venezuela, as well as at Amuay's main administrative building.

The blast was also felt out at sea in the Paraguana bay, where some crew members on moored tankers were knocked off their feet by the shockwave, one shipping source said. Ramirez said the fire that started after the explosion had affected only nine storage tanks holding mostly crude oil and some processed fuels including naphtha.

Officials said two tanks were still burning off residual fuel, and a Reuters witness at the scene said large black clouds of smoke hung above the area.

### The All New FE Petroleum News

#### Oil price could plunge to \$50, says Credit Suisse

“Brent oil prices would again hit \$50 (£32) a barrel” in a worst-case scenario, according to analysts Jan Stuart and Stefan Revielle. “Oil demand would deflate sharply following acute crises of confidence.”

#### BP

The analysts said that all potential negative scenarios involved Europe “to some degree” with the starting point of collapse coming over the summer. However, Brent crude rose \$1.06 to \$98.20 yesterday after the US Energy Department said the country’s stockpiles had seen a surprise fall of 191,000 barrels to 384.4m barrels last week.

Comparing the situation in 2008 and today, Mr Stuart and Mr Revielle noted that “global imbalances are worse and much of the available political and real capital has merely been squandered in the interim.”

The comments come ahead of an expected clash between the Organisation of the Petroleum Exporting Countries’ members at today’s key meeting in Vienna.

The OPEC cartel will hold a meeting to decide on crude output levels for the second half of the year and comments from Saudi Arabia ahead of the meeting have been at odds with fellow producers.

Last week, Ali al-Naimi, Saudi Arabia’s oil minister, said that OPEC may have to raise its collective production ceiling of 30m barrels a day in order to protect global economic growth. This increase in output would be needed despite the fact that the oil price has fallen below \$100 a barrel, he said.

However, raising output could “send the wrong signal,” according to Eugen Weinberg, an energy analyst at Commerzbank.

“In the present environment.... it would suggest that OPEC was not willing to step down the overproduction,” Mr Weinberg said. “This would risk a continued oversupply and a further drop in prices.”

Yesterday, OPEC’s monthly oil report contradicted Mr al-Naimi, indicating that the cartel, which pumps 40pc of the global oil supply, was producing more crude than markets needed. “High OPEC crude oil production standing above market requirements provides further confirmation that the market remains amply supplied,” the report said.

Other members of OPEC also disagree with Mr al-Naimi, as they want production reduced to keep oil prices at the \$100 level or higher.

An oil price of \$100 to \$110 a barrel “is best for all,” including investors, producers and consumers.

Dear Client

### **PRE-ARRIVAL INFORMATION AND PROCEDURES**

Before the shipment arrives to London the Seller should notify the First Edge Team of departure date and other related document's please see (Required Documents shown below) this is to be dispatch and supply by Email

The Clear customs and pay 20% VAT also pay for security to Refinery and transport your Rep to Refinery/pay smelting and assay at Refinery then pay two days hotel accommodation for your Rep.

The smelting assay process will take no longer than 24 to 48 hours with payment in full to the seller for the total shipment immediately thereafter.

This in itself is of significant financial benefit to Gold Sellers when compared to the present sales structure.

By accepting this format you will benefit from rising Au Gold prices going forward.

It is important to bear in mind that you will ship each consignment on CIF basis, which in itself guarantees that ownership of the gold does not pass from Seller to Buyer until payment in full has been effected.

The Refinery is Government Certified and of excellent financial standing.

The obvious benefit of trading directly with the Refinery on clearly defined terms is to build a trading relationship based on mutual trust and integrity.

We are at your disposal should you require any further clarity that we are the only UK company that will pay for the all the transaction stated at the port of delivery.

### **First Edge Ltd will not make any Advance Payment other than Full Payment after Full Assay**

This does not means we are not prepared to negotiate any added payment cost after the gold has been assayed, but no upfront fee and no advances also no diplomat fee or financier cost or anything relating where first edge has to pay upfront fee once the gold has arrived in London and before the assay of the gold has been completed.

### The conflict in Syria: Worse and worse, and no end in sight

In **Syria**, government forces were reported to have killed at least 380 people in Daraya, a town on the south-western edge of Damascus, the capital. President Bashar Assad said his forces needed "more time" to win the battle against the rebels, and dismissed as "unrealistic" the idea, suggested by Turkey's foreign minister among others, that humanitarian corridors or a buffer zone should be set up

### Of biblical proportions

The start of the **Republican convention** in Tampa, Florida, was disrupted as Hurricane Isaac passed close by, but it didn't stop Mitt Romney from being formally nominated as the party's presidential candidate after the traditional roll-call of pledges from the state parties. Now that he is the official candidate, Mr Romney can start to spend the vast war-chest he has been hoarding to fight the presidential election.

### FEMALE PRAYER

Before I lay me down to sleep,  
I pray for a man, who's not a creep,  
One who's handsome, smart and strong,  
One who loves to listen long,  
One who thinks before he speaks,  
One who'll call, not wait for weeks  
I pray he's gainfully employed,  
When I spend his cash, won't be annoyed.  
Pulls out my chair and opens my door,  
Massages my back and begs to do more.  
Oh! Send me a man, who'll make love to my mind,  
Knows what to answer to "How big is my ! behind?"  
I pray that this man will love me no end,  
And never attempt to hit on my friend.  
And as I pray beside my bed,  
I look at the clown you sent me instead.  
Amen.

### MALE PRAYER

I pray for a deaf-mute nymphomaniac  
with huge boobs  
who owns a liquor store.  
Amen

## Grandma's Driving - too funny

The other day I went up to a local Christian bookstore with my lovely Dog and saw a honk if you love Jesus bumper sticker.

I was feeling particularly sassy that day because I had just come from a thrilling choir performance, followed by a thunderous prayer meeting, so I bought the sticker and put in on my bumper.

I was stopped at a red light at a busy intersection, just lost in thought about the Lord and how good He is and I didn't notice that the light had changed.

It is a good thing someone else loves Jesus because if he hadn't honked, I'd never have noticed.

I found that LOTS of people love Jesus. Why, while I was sitting there, the guy behind started honking like crazy, and when he leaned out of his window and screamed, "for the love of God, GO! GO!" What an exuberant cheerleader he was for Jesus.

Everyone started honking! I just leaned out of my window and started waving and smiling at all these loving people.

I even honked my horn a few times to share in the love. There must have been a man from Florida back there because I heard him yelling something about a sunny beach...

I saw another guy waving in a funny way with only his middle finger stuck up in the air. When I asked my teenage grandson in the back seat what that meant, he said that it was probably a Hawaiian good luck sign or something.

Well, I've never met anyone from Hawaii, so I leaned out the window and gave him the good luck sign back.

My grandson burst out laughing, why even he was enjoying this religious experience.

A couple of the people were so caught up in the joy of the moment that they got out of their cars and started walking towards me.

I bet they wanted to pray or ask what church I attended, but this is when I noticed the light had changed.

So, I waved to all my sisters and brothers grinning, and drove on through the intersection.

I noticed I was the only car that got through the intersection before the light changed again and I felt kind of sad that I had to leave them after all the love we had shared, so I slowed the car down, leaned out of the window and gave them all the Hawaiian good luck sign one last time as I drove away.

Praise the Lord for such wonderful folks!

## Best Excuse Ever

A wealthy middle aged man bought a brand new Merc converible SLK. He took it down the road flooring it up to 80mph, enjoying the wind blowing through what hair he had left. 'this is great' he said to himself.....and floored it a bit more.

He looks in his rear view mirror.....POLICE CAR !!! - blue lights flashing, siren blasting, catching him up!!!

can get away from him - no problem', thought the man, and he gave it some more - 120mph.....he carried on - then had a panic attack.

'What the F%\$^ am I doing ? I'm too old for this kind of thing', and he pulled over, gave up and waited for the Officer to arrive.

The Policeman gets out of his car, walks over to the aged and frightened >>old man and says to him, '

Sir, (looking at his watch), my shift ends in 30 minutes and today is Friday 13th. If you can give me a reason why you were speeding that I've >>never heard before, I'll let you go'.

The man looked back at the Officer and said,'Last week my wife ran off with a Policeman, and I thought you were bringing her back'.

'Have a nice day' said the Policeman
