INTRODUCTION

OBJECTIVES

FE Magazine's objective is to keep all our readers updated with a month to month review of the latest in information on today's commodity world.

Our other objective is to publish past and current commodity information to buyers, sellers, broker's and traders, also review institutions that are involved in today's commodity Market.

COLUMNISTS

Our Columnists will bring you an up to date review of the world of commodities.

OUR MAIN GOAL

Our main goal is to help trader's and companies build a reliable business network around the world.

Our Customer Support Team is always at your disposal in helping you against any inquiries or issues you may have in read reading FE Magazine.

Please E-Mail: info@femagazine.co.uk

NOTICE BOARD

Notice Board is designed to place notices about any product you might be looking sell and buy.

If you have any question's or need further information on how to place your product on notice board.

LEADING NEWS

Quick News points out what's happening in today's commodity market place and other area's.

FE Magazine Disclosures

True and Lies with Q & A on Swift and Private Placement Programs

Financiers and Brokers True and Lies

This months and next months editions' of FE Magazine will review and analyze the main structure of PPP MTN/LTN and swift. Due to current financial restraints, we are unable to publish curtain financial information, but most of what is published is true and authentic from main principle's figures that has or have been a head figure in the operation of trade floor room along with financial institutions and banking around the globe.

For many years a large number of brokers claim to be experts on the finance sector, declaring to have contacts with alleged "banks, platforms and/or Traders, we noticed their absolute lack of knowledge about banking tools such as the issuance of a Swift's and what they stand for. FEM along with First Edge Ltd has made the decision to increase the awareness of our readers by explaining the actual operative in issuing Swift's and Bank Guarantee together with a Q and A summary.

Sadly, people will do anything in desperation to make money. But sadly most foundations along with investment and Heritage funding companies lose a lot of time an effort by bad brokers who fails to do any checks on who they present. Not to generalizes but most of these transactions are 99% fraud, scams, and non-existent.

The other 1% operates at the highest levels in international banking, and they never talk about these programs unless they are from in house connections

Sadly most brokers don't have access to the likes of Euro or Bloomberg screens and believes in people who say they are principle and direct to curtain banks , there people can play on the need for discretion and non-disclosure, using the necessity for secrecy which is used by most banks to mask their real intentions.

Analyzing SWIFT

First we will analyze what a SWIFT is, on what is based the issuance of a MT-760 as well as the emission operative.

We would also like to punctuate that SWIFT is a Belgian company created in 1973. Currently, SWIFT has advanced by leaps and bounds and nowadays more than eight thousand banks use the system daily as a tool for any commercial activity many people who claim to know what swift is does not know that swift has hundreds of specially designed Swift MT Instruments used by various financial institutions and banks around the globe.

True and Lies with Q & A on Swift and Private Placement Programs

SWIFT MT-760 emission operative

Why is a Swift MT-760 most commonly used by most *financial institutions* and banks?

The MT-760 is a kind of SWIFT message known as Guarantee that, as its name suggests, works as a bank guarantee. Therefore, it is important to be warned about its danger before malicious individuals.

Most investor's Bank issues a SWIFT MT-760 using an asset as base (**CASH, BG, CD, MTN**, etc). This asset is issued in favour of the recipient (the recipient of the MT-760). This kind of message is commonly used in the Commodities sector or in businesses such as the import or export of any product. The issuing bank uses the asset as a guarantee in favour of the client receiving the MT-760. It is also important to note that this is the classic locking option when it comes to participating in a Private Placement Program.

Prior to the emission of a SWIFT MT-760, the Issuing Bank will emit a SWIFT MT-799 (Free Message). The MT-799 is issued as a Pre-Advice (notifying the receiving bank that a guarantee in the form of MT-760 will be issued). Then, in the next 24/48 hours, the receiving bank emits a SWIFT MT-799 to the Issuing Bank confirming that they are ready to receive the MT-760. In the next 24/48 hours, the client's bank proceeds to the issuance of the SWIFT MT-760, with the acceptance of the receiving bank. Thus, the asset is locked in favour of the recipient for the time specified in the text of the SWIFT message.

To explain it in a simpler and more graphical manner, this will appear detailed on the Image 1 located below the text.

If a MT-760 is issued, can it be revoked?

Absolutely NO. Many unscrupulous brokers and alleged platforms want the investor to believe that the MT-760 can be withdrawn without inconveniences when the investor orders it. The reality is quite different.

When a SWIFT is issued and accepted by the receiving bank it is totally IRREVOCA-BLE. It can only be revoked if the recipient of the MT-760 gives consent to his/her bank to proceed with the withdrawal.

True and Lies with Q & A on Swift and Private Placement Programs

What assurance is there regarding a MT-760?

When a client issues a SWIFT MT-760 for a period of (for example) 10 months, in addition to being irrevocable, this involves serious risks since the so-called platforms or intermediaries who claim to have contact with a trader can interact with the asset and this lead to its loss. And these are terrible consequences for the client.

What assurance is there regarding a MT-760?

We advise the client to make sure that the person he/she will be working with is a real Trader. Once the Trading agreement is in front of the client, they should ensure that they are dealing with the right person/company.

What happens if I issue a SWIFT MT-760 to a real Trader?

Prior to the issuance of the MT-760, the signing of the Trading agreement will take place. Here we will find the banking coordinates of the Traders bank where the client will need to issue the SWIFT. Upon the issuance and receipt of the MT-760, it will be the same trader the one in charge of "monetizing" such SWIFT, and with the amount of credit obtained, the program will be accessed. It is important to point out that, being the Traders company the recipient of the SWIFT and the one in charge of obtaining the credit line, it will also be the one responsible for its refund and for confronting all incurred expenses.

Main Reasons not entry in a Private Placement Program

- 1.- Brokers who contact directly to investors saying they are members of the Trader's Office. Absolutely false. Trader's Office never contact with investors at an earlier stage. Program Manager is the person who provides the first contact with the client once the operation has been submitted and verified.
- 2.- "Trading Platforms" which say they have direct contact with a real Trader and after you can verify that's not true. They never show you a real trading contract, Trader's name is not identified, etc...
- 3.- Investors who do not have enough capital to access to the program and they decide to rental an instrument (leasing). Instruments of leasing are not valid for entry to PPP because the investor is not the "applicant" (owner) of assets (he is only the beneficiary) and makes not possible the issuance of a Swift MT-760 (one of the two blocking options) in favour of banking trader coordinates.

True and Lies with Q & A on Swift and Private Placement Programs

Main Reasons not entry in a Private Placement Program

- 4.- Investors who do not have the money in a bank acceptable. They have their funds in an offshore bank that does not allow the verification bank to bank.
- 5.- Investors who do not have a good explanation from the origin of money. The capital which will access into the program must be good, clean, clear and non-criminal origin.
- 6.- Investors who do not have a qualifying asset to be worked. Bonds considered "trash" or cases in which the asset is deposited in a security house and has no full bank responsibility. Any asset to be worked must have full bank responsibility by a TOP50 Bank.
- 7.- Investors who try to enter into the program following their own rules. They indicate the procedure to follow, the way the asset must be blocked, etc. This is not the right way to participate in a PPP. In this financial opportunity, the process is marked by the Trader and not by the investor. If the investor does not follow the procedure imposed by the trader, he is not valid for this financial opportunity.
- 8.- Investors who do not cooperate enough with the management group or they are delayed too much when they have to send the documentation requested by the management group.
- 9.- Investors who has an asset can't be verified on a bank
- 10.- Investors who want to block the assets via Swift MT-799 or DTC-Euroclear. In the case of Swift MT-799 is not possible because a MT-799 is a free format message bank to bank and not a blocking swift like can be a MT-760. About systems like DTC-Euroclear are not accepted by the banks which grant the credit lines.
- 11.- Investors who are in a black list and not exceed the due diligence.

In Next Months Edition we will be showing all the question and answers needed to ask along with what MT instruments is used by most banking and financial institutions around the world.

Yes he's back on the Top Spot (review of the Worlds Billionaires)

Bill Gates' total net worth was estimated at \$76bn this year

Microsoft founder Bill Gates has regained the top spot as the world's richest person in the annual ranking of global billionaires.

Mr Gates' total net worth was estimated at \$76bn (£45.5bn) this year, up from \$67bn in 2013.

His rise in wealth knocked Mexican telecoms tycoon Carlos Slim off the top spot into second place.

In total, there were a record 1,645 billionaires, according to Forbes.

The funds needed to make it into the top 20 ranking are now \$31bn, up from \$23bn last year, Forbes said.

Mr Gates has been top of the list for 15 of the last 20 years, according to Forbes.

Technology firms featured heavily in the list, with Facebook founder Mark Zuckerberg becoming the biggest gainer in net worth.

His fortune more than doubled to \$28.5bn, boosted by a sharp rise in the price of the social network's shares.

The social network's chief operating officer, Sheryl Sandberg, also made the list for the first time.

WhatsApp founders Jan Koum and Brian Acton entered the list at number 202 and 551 respectively, thanks to Facebook's \$19bn purchase of the messaging app.

US continues to dominate

The world's largest economy, the US, continues to have the most billionaires, with 492.

By region, Europe boasted the most billionaires outside the US, with 468 in total, closely followed by Asia, which had 444 billionaires.

The list suggested that wealth was spreading, with four new countries featuring for the first time - Algeria, Lithuania, Tanzania and Uganda.

Nigeria's Aliko Dangote, Africa's richest man, became the first African to be listed in the top 25, with a net worth of \$25bn.

Landlord Gerald Grosvenor and family were the richest British family to make the list, with a net worth estimated at \$13bn.

Known formally as the 6th Duke of Westminster, he owns 190 acres in Belgravia, an area adjacent to Buckingham Palace and one of London's most expensive neighbourhoods.

Yes he's back on the Top Spot
(review of the worlds millionaires)

FEM list of world's richest people

Name	Wealth	Main business
Bill Gates	\$76bn	Microsoft, software
Carlos Slim	\$72bn	America Movil, telecoms
Amancio Ortega	\$64bn	Zara, fashion
Warren Buffet	\$58.2bn	Berkshire Hathaway, investment
Larry Ellison	\$48bn	Oracle, software
Charles Koch/David Koch	\$40bn/\$40bn	Koch Industries, various
Sheldon Adelson	\$38bn	Las Vegas Sands, casinos
Christy Walton	\$36.7bn	Wal-Mart, retail
Jim Walton	\$34.7bn	Wal-Mart, retail
Liliane Bettencourt	\$34.5bn	L'Oreal, retail

The Richest People On The Planet

The ranks of the world's billionaires have swelled to a record 1,645. While wealth spreads to new corners of the world, including for the first time places like Tanzania and Lithuania, the U.S. still dominates

Welcome To The Club: 2014's Newest Billionaires

This year a record 268 first-time faces to our annual listing of the World's Billionaires, including 42 women, the most ever. In aggregate they are worth some \$510 billion – roughly the GDP of Norway – another record.

Yes he's back on the Top Spot
(review of the worlds millionaires)

FEM The Future billionaires

What do we know about the emerging generation of the mega-wealthy?

The extremely wealthy are growing in numbers and entire industries are being created to cater to their desires but where are the individuals who are amassing vast fortunes based and what do we know about them?

Companies and websites are springing up to track and analyse the names, numbers and needs of the mega-wealthy, you can even get a daily update on who today's richest man (it's always a man) is.

So what can we tell from all of this analysis about the wealthy and the kind of world their rise is creating?

The number of billionaires is forecast to grow by 38% to 2,315 in the decade to 2023, according to Knight Frank's annual Wealth Report which is carried out by the research company Wealth Insight.

How many billionaires are there in the world?

The crude number of billionaires may not be that high, but the report forecasts growth among those with \$30m (£18m) or more, also known as "Ultra High Net Worth Individuals", to reach 215,000 by 2023, a rise of 28%.

While the numbers of the super-rich will swell in all regions of the world, the rate of growth in emerging economies is forecast to be much stronger in the coming decade.

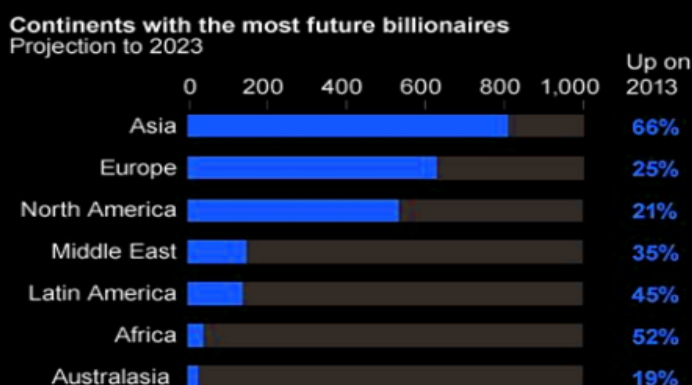

Asia, according to the study, will have the most billionaires and the growth will be considerably greater than in North America and Europe. However it is also worth noting that this reflects a larger population in general. Another thing worth noting is that with inflation a billion today is not going to be worth the same as a billion in 10 years' time.

Yes he's back on the Top Spot
(review of the worlds millionaires)

FEM The Future billionaires

Asia, according to the study, will have the most billionaires and the growth will be considerably greater than in North America and Europe. However it is also worth noting that this reflects a larger population in general. Another thing worth noting is that with inflation a billion today is not going to be worth the same as a billion in 10 years' time.

When you break it down country by country, the US is still expected to have the most billionaires in 2023 but China, Russia and India will be racing to catch up with far higher rates of growth.

Yes he's back on the Top Spot
(review of the worlds millionaires)

FEM The Future billionaires

One surprising result from the research is the number of self-made multi-millionaires far outstrips those who inherited their money or built a fortune on a substantial inheritance, by roughly two to one.

The dilemma for those who make their own fortune is whether to pass their wealth on to their children or to give the bulk of it away.

Edward Zhu on why he may not give his fortune to his children

Multi-billionaire Edward Zhu, who moved to China from the United States two decades ago, says talented people should start from nothing and that is what he wants for his children.

When it comes to gender, almost nine out of 10 of all the individuals worth more than \$30m are men.

And perhaps less surprisingly, the ultra-rich don't find it too hard to find a partner.

Both men and women are almost guaranteed to already be hitched for life.

Top 10 Countries strongest Air Force

It is a broad term used for air armies generally of a state. They are the defenses system of military which is made for warfare in the Air.

They are an important part of the military arrangement of any country because only through jets and fighter air crafts many jobs are done.

The most important of them is destroying and bombing the desired area. It can be specifically done by Air force only as only they can travel large distances at a very good speed which is impossible for Land Army or the Navy.

Also they can transport ammo, food or food to the battlefield in large amount. They can also transport the soldiers for giving backup.

No doubt that air crafts have created a difference in transportation of goods and people but they also have affected the warfare.

These sophisticated fighters are loaded with Machine Guns. On the top of it they are having impressive Fire power and some have super sonic speed. They are filled with grenade and Rocket launchers.

They are capable of firing guided missile towards their enemy which ensures that wherever the object tries to go or dodge he is definitely struck.

There are different planes for giving warning. The search and rescue missions are also undertook by Air Forces.

That is why all the countries are in a race of getting the best weapon and the best Air Crafts. All countries are manufacturing Fighter planes in large numbers. The countries know that the person having the best both in quality and quantity of planes will be victorious in any war.

Not only the planes but the training given to the pilots is also an important factor. .So here are the countries who have succeeded in having best of Air Crafts and the Pilots.

Top 10 Countries strongest Air Force

1. USA Air Force

People can not have any doubt in this. No country can challenge them nor their position. Its most powerful in all the aspects. Whether it is power, quality or the quantity or the research center. Their future seems bright as its nearly impossible for any country to defeat them in near future. There are some problems with the F35 but then also they are the best. Not only this they are having best unmanned combat vehicles about 200 in number. They are having 5600 combat planes. They have 2000 air launched cruise missile. And 450 ballistic missiles. Hence it makes them totally fit and worthy of the 1st position as they are unchallengeable.

Hence these are the best Air Forces in the world equipped with the futuristic weapons and struggling to be the most powerful. Who knows that I have to change this list again in near future, but it is sure that these countries would be victorious due to their Air Power and their weapons.

2. Russian Air Force

Here comes the second largest Air Force of the world. Having 3000 air planes they come 2nd in this list. They are not having any fear as they would remain on this position for a long time as there are only some countries who can challenge them like China and India. They are having the best missile system and a decent amount of weapons which are the best. They are having 2000 combat crafts and 1000 trainers and 400 attack helicopters. Their Bomber, transport and refueling planes are also in a good condition. They want to remain in this position, That's why they are investing a lot in development of the planes.

Top 10 Countries strongest Air Force

3. Chinese Air Force

This is the largest air force of Asia. With 33000 personnel and 2800 air crafts. They have started building their own fighter jets but are not tested yet. Having 1000 fighter crafts and 750 bombers. They are having large number of trainers and refueling tanks and use Russian technology. But it is getting difficult for them to get more so they have to develop their own crafts, so that they can beat Russia. They are having Best quality and a lot of quantity.

4. British Air Force

This Incredible air force is having about 100 Planes and helicopters in total. They are having 330 planes for fighting. And 250 Bomber crafts with 550 trainer crafts to give training to the pilots. 75 attack helicopters and 15 refueling crafts, and 150 transport jets are also included. No doubt that these magnificent numbers are going to defeat the enemies, They totally rely on their own crafts and also are having best of the planes and attacking weapons inst

5. Indian Air Force

This is the 4th largest Air force of the world. Having 180000 personnel. They are having 1300 air crafts to destroy their enemies. They have 370 combat planes and 250 bomber jets. 6 refuelling crafts and 230 transport crafts and 200 trainer planes are some huge numbers. But they are having very less fighter helicopters i.e. 20. They are trying to improve their quality as most of the plains are very old. they have enough money to buy other planes of other countries but if they do not improve the quality they may lag behind. they may also improve their research project.

Save the Children
NO CHILD BORN TO DIE

SEE OUR WEBSITE :
www.femagazine.co.uk

christian
aid

Top 10 Countries strongest Air Force

6. Israel Air Force

This country may appear economically weak but their armies are totally well equipped and they have developed many weapons for the world. As they are mostly engaged in wars they have well developed air force with Huge quantities and even quality. Their war experience is amazing and have a lot of money and funds to buy these planes in future. But actually it lags in size. They have 400 fighter jets but no bomber. And very less training plane. Their fighter copters are also in good condition and number. They have 80 helicopter and 6 refueling crafts. But their economic condition would not let them go any further. As in comparison to their counterparts they have worst economic conditions in this list.

7. Germany Air Force

The German Air Force is also a modern air force. Their research and development services of air crafts is also very nice. Their economical sector the future improvement is having very less scope. They have no Bomber aircraft. They are having about 300 combat crafts. They are having a low number of Training planes. They are having 30 Fighter helicopters, and 100 Transport planes with 5 Refueling planes make them a deadly Air Force. They have good War experience in 2nd world war. The planes are futuristic but the quantity could be a little more.

8. Canadian Air Force

They are having 345 Combat air crafts and 80 Bomber crafts. 100 trainer air crafts make it very powerful. 140 Transport air crafts to transport ammo and backups and 14 fuel refuelling crafts. They are having a lot of Fighter Helicopters that makes their Air Force too much powerful. They mostly use US weapons. And in future its difficult for them to buy more than 100 air crafts. fighter number and the sophisticated weapons make them really very nice.

Save the Children
NO CHILD BORN TO DIE

SEE OUR WEBSITE :
www.femagazine.co.uk

christian
aid

Top 10 Countries strongest Air Force

9 Japan Air Force

Japan Air Self Defense Force is also a very deadly Air Force. It is having about 300 fighter jets and 20 jets for giving warnings. Its having 4 air refueling planes. There are 30 search and rescue air planes which is used for rescuing trapped soldiers or civilians. They are having 50 helicopters but they are not fighter but transporter of ammo. But they have a lot of training planes that is about 300. They are presently having no UAV, but in future they are planning to introduce fighter helicopters and Jets and some UAV's. They intend to purchase and manufacture many other jets. So these high quantity and quality Planes make it a deadly competitor of our List.

10. Australia Air Force

The Royal Australian Air Force is little small. But do not underestimate it. Its extremely deadly as the quality of planes are extremely good but the quantity could be more. They are having about hundred fighter planes and some fighter helicopters. Even they are having 3 UAV's with 5 Air refueling planes. Its sophisticated technology and nice weapons installed make it a eligible to enter Top 10. For patrolling they have about 50 airplanes. They are having 100 training air planes to give training to the pilots. The Only con is that the quantity of planes are very less and in a war it may prove very fatal.

1. Flying Car

First Ever Flying Car - AeroMobil

<http://www.aeromobil.com/evolution>

Aeromobil is a "flying car" that perfectly makes use of existing infrastructure created for automobiles and planes, and opens doors to real door-to-door travel. In terms of automobile configuration, it fits to a standard parking space, its engine enables it to tank at any gas station, it is fully accustomed to road traffic and as a plane it could both take off and land at any airport in the world.

2. Flying Car

First Flying Cars Are Set To Go On Sale In Early 2015

<http://i2.cdn.turner.com/cnn/dam/assets/130509142450-flying-car-tfx-terrafugia-story-top.jpg>

As we all know, the one thing that flying cars have not done is become a commercial product. This could change in the near future. There is a company that has even come close to building and also selling a car that can fly.

The Arrival of Car Planes

3. Flying Car

Flying Car - Terrafugia Transition street-legal aircraft

<http://www.terrafugia.com/aircraft/transition>

The Transition® brings a new level of freedom, flexibility, and fun to personal aviation by combining driving and flying in one state-of-the-art vehicle. A steering wheel and gas and brake pedals on the ground make it familiar to drive while a stick and rudder pedals provide responsive control in flight.

By being able to land and drive, not only is the "last mile problem" solved but inclement weather will no longer stop your trip. Running on premium unleaded automotive gasoline, the same engine powers the propeller in flight or the rear wheels on the ground. Converting between flight and drive modes is comparable to putting down the top on your convertible and you can keep the Transition® at home in the garage: flying has never been so convenient!

4. Flying Car

<http://pal-v.com/>

For more than a century man has dreamed of the freedom provided by a flying car. The ultimate vehicle to go wherever and whenever you want to, easily overcoming all sorts of barriers. Now you can leave home and fly-drive to almost any destination! Avoid traffic jams and cross lakes, fjords, rivers or mountain ranges like an eagle.

The New Apple Watch (16 amazing things you can do with it?)

FEM is excited about the potential of new Apple Watch, especially make answering the phone when driving safer. While you can transfer calls from the phone to an in-car speaker, taking your hands off the wheel at any time isn't safe. We all know that clicking about with your phone can be more dangerous than drinking and driving, now all you have to do is ask Siri to forward incoming calls to either speaker or voice-mail.

A list of the new refine Apple Watch will show this is a sure investment for its price but were does this leave the iplayer?.

1. Answer or reject calls

One main function of a smart watch is to act as a second screen for your phone. To this end, Apple Watch will light up whenever someone is trying to call you. Tapping the green button means you can take the call on your Watch, or transfer calls to your iPhone, Bluetooth headset or a car's speaker phone.

2. Check emails and messages

As well as answering calls, you can check emails and messages on the go. From your Watch you can mark messages are read, unread, flag them as spam or simply delete them. If you want to type a longer response, you can tell Apple Watch to open a message on your iPhone.

3. Mute incoming calls by moving your hand over the Watch

If you're in the middle of a meeting, your phone's in your jacket pocket and you've forgotten to turn it on silent, you'll look cooler less stupid by moving your hand over the screen of your Apple Watch, as opposed to awkwardly fumbling the vibrating, ringing phone out of your pocket. And then dropping it on the floor.

The New Apple Watch (16 amazing things you can do with it?)

4. Stay connected with your best Friends

Apple Watch lets you stay connected with the people you speak to the most with the Friends feature. A simple tap of a button will let you message, call or contact people in a number of unique ways which we'll go through now.

5. Flirt with the 'Taptic Engine'

The so-called taptic engine built into the Apple Watch lets you receive subtle notifications. Instead of a light flashing up or your watch vibrating loudly, you can be notified of new message with a silent, gentle vibration that only you'll feel and no one else will hear.

If you're flirting with a secret someone or simply having a conversation on something you'd rather keep private, this feature is for you.

6. Communicate in Morse code

Another feature that'll be beloved of secret agents and furtive lovers is the ability to communicate with people by tapping on the display. If you're wise to the ways of Morse code you can, in theory, have a conversation with someone by tapping out dots and dashes.

Perfect if you need to get those briefcase codes over to Sterling Archer, although he's probably too busy Morse coding the intern from the Russian embassy (who totally isn't a double agent, Lana) to notice.

The New Apple Watch

(16 amazing things you can do with it?)

7. Share your heartbeat with the love of your life

The Apple Watch can measure your heartbeat by taking a pulse reading from your wrist. While this is primarily a smart health feature, the messaging function of the Watch also lets you share heartbeat readings with others. If you're in a hopelessly soppy relationship, you might enjoy sharing vital signs with each other.

8. Scribble and share immature penis drawings

If you're less sophisticated in declaring your affections, you can scribble a crude penis or breasts on your Apple Watch and ping it over to your would-be partner. Chances are it won't work.

In theory you can use the sketch tool to draw anything and send it to one of your contacts. In reality we think most people will use it to annoy and amuse each other in a time-honored fashion.

9. Get fit and healthy

A key feature of most smart watches is their ability to double as fitness trackers and Apple's Watch is no exception.

It comes with a dedicated workout app built in that lets you set your own goals, whether you're running, walking or cycling. You'll be able to check how well you're doing at a glance when you stop for a breather and get a full breakdown of your time, calories lost and the distance you've crossed at the end.

10. Get fitter and healthier - connected to your iPhone 6/6 Plus

Running up a steep hill burns more calories than running across a flat piece of land. But your Apple Watch won't know this unless you're connected to an iPhone 6 or 6 Plus., Apple's latest phones come with extra sensors that track elevation as well as direction, so it knows how high you've had to climb and how hard you've had to work to running up that hill.

The New Apple Watch

(16 amazing things you can do with it?)

11. Change the wrist straps to suit the occasion

Apple has designed Watch so that the straps can be removed and replaced with different ones, if you wish.

The sport band is made from a rubbery, spongy material that's sweat resistant - the perfect thing for a workout. Once you've done your laps of the park, or wherever it is you choose to work out, you can slip the band off and attach a metal link or leather one for work or leisure time.

We predict that third party manufacturers and internet artisans selling wares on Etsy are already busy sketching and working on ideas for bespoke straps. Pretty soon you'll be able to get Watch straps fashioned from denim, day-glo PVC and dragon heartstring. We assume.

12. Use Apple Pay to buy stuff

Speaking of buying extra straps, this reminded us that Apple had imbued its Watches with NFC chips. This means you'll be able to buy things with it using Apple Pay. Instead of tapping your phone next to an in store reader, you can tap your Watch instead.

13. Find your way around town with Maps

The modern city dweller has become used to stopping every five minutes to check their phone and make sure the course they've plotted for that important meeting or date is the correct one.

With Maps on your Watch, you can get turn by turn navigation without having to constantly fish for your phone.

14. Use Watch as a remote trigger for photos

This is perfect if you want to position your iPhone for the perfect shot of friends, your cat, or whatever you want to pap. You can even use this to spy on friends, family members, housemates and workmates if you suspect them of constantly stealing your things and/or goofing off when they should be working/cleaning the goddamn kitchen.

The New Apple Watch (16 amazing things you can do with it?)

15. Remotely kill Bluetooth and turn on Airplane mode to save your iPhone's battery
Another neat feature of Watch is the ability to turn off Bluetooth or all of the radios on your iPhone if you're heading towards that ten per cent battery danger zone.

16. Tell your smart home when you'll be walking through the door
This hasn't been confirmed yet but we'd be very surprised if Apple didn't find a way to bring Home Kit - it's smart home ecosystem - and Apple Watch together.

The big deal with Home Kit is that you'll be able to issue commands to and get notifications from smart home appliances like smart heaters, door locks and IP cameras from your phone.

Apple Watch: Features we'd like to see

As well as these 16 things there are still some other features we'd like to see on Apple Watch. The ability to remotely control your iPhone's main camera is great, but how about letting us have access to the front camera too? That way if someone has stolen it, you could take a picture of their face, save it in iCloud and you've got something better than any police photo fit.

Alternatively, you could finally find out who exactly keeps taking your phone at parties and posting stupid stuff on your Facebook wall. Name and shame the culprit. The Apple Watch backgrounds we've seen are great and everything but ones we'd really like to see include one inspired by the flux capacitor from Back to the Future and Salvador Dali's 'Persistence of Memory'.

A smart watch face that actually melts when you try to look at it could make telling the time tricky, but it'd definitely have great show-off potential.

FE Gadgets

There are so many gadgets out there today that are hi-tech and out-of-this world. Here is a list of the top gadgets that all men wish they had. If you are a man looking to shop for yourself or if you are a woman needing to get your man a gift that he will not only love, but also want, take a look at these fascinating gadgets!

1. Sony Short Throw 4K Projector

<http://www.sony.net/Products/4k-ultra-short-throw/>

This projector is actually in disguise as a piece of furniture in your home! It gives you an amazing image and has capabilities of projecting 147-inch images. This delivers the home cinema of your dreams at a price of \$30,000-40,000. Thank you Sony!

2. JVC Everio

<http://newsroom.jvc.com/press-releases/camcorder/performance-enhancements-and-expanded-wi-fi-functions-for-new-jvc-everio-camcorder-line/>

This amazing camera has features that would impress any man, with 40x optical zoom, 4.5 hours of battery life, dynamic zoom of 60x, and strong low light performance. This camera is so small it can fit into your pocket and go with you anywhere. It is shock proof, dust proof, freeze proof, and water proof! It is the camera of your dreams.

FE Gadgets

3. Philips Surround Base

http://www.usa.philips.com/c-p/HTB3525B_F7/blu-ray-surround-base

This amazing surround base will transform your home living room into a cinema. The audio capabilities of this little machine will amaze you and exceed all of your expectations. You can either sit down and enjoy a movie in your home as if you were in a movie theatre, or you can play some of your favorite music and listen to songs you love as you've never heard them before. This amazing product is only \$199 and is a gadget that any man would want.

4. Monster DNA Pro Wireless

<http://www.coolest-gadgets.com/20131104/monster-dna-pro-wireless-headphones-set-tingle-ears/>

Although these wireless headphones are a bit pricy, I think we can all admit they are totally worth the cost. These earphones come with incredible active noise cancellation features, Bluetooth capabilities, and touch interfacts that are buttonless. Draining the batteries is no longer a worry with the automatic funtion that turns the set off for you.

5. LG Lifeband Touch

http://recombu.com/mobile/news/lg-lifeband-touch-announced-ces-2014_M19921.html

This Lifeband is the perfect mixture of a smartwatch and a fitness tracker. This unique band actually monitors your activities every day and can also notify you when you receive a text or phone call on your smartphone. Amazing! It also can be paired up with Heart Rate Earphones from LG that can measure your heart rate from your ear. This high-tech band is definitely a male must-have!

FE Gadgets

6. Parrot MiniDrone Quadricopter

<http://www.tuvie.com/spy-your-enemy-with-parrot-minidrone-quadricopter/>

Let's all just go ahead and admit it; drones are really awesome gadgets! The Parrot MiniDrone Quadricopter definitely proves that and is the best one available today. This MiniDrone is actually controlled by your smartphone. The two big wheels on the sides are capable of rolling on the ceilings and on the walls. What an amazing feature! This is definitely a gadget you will want to invest in.

7. Pebble Steel

<https://blog.getpebble.com/2014/01/06/pebble-steel-ces-2014/>

Ever heard of Pebble Steel? Well you might want to read on! This smartwatch is an incredible design and will definitely keep you in style. There are numerous apps available on this smartwatch and is a watch you will definitely want to add to your collection of gadgets. If you've never invested in a smartwatch before, make the Pebble Steel your first go-to!

The new Basel III international banking laws

Started on Sep. 10th, 2013,

The Basics

The seller must provide POP BEFORE THE BUYER'S BANK CAN DELIVER POB

Please note then that no bank is allowed to open any bank instrument (BG, LC, SBLC, RDLC etc.) unless the full POP package is sent to the bank with a signed contract.

Also, please note that seller's banks cannot confirm POP.

They can only confirm that they hold documents which they believe are proof of product.

It will remain the duty of the buyer to verify the validity of any such POP in conjunction with their own bank.

- 1) All offers NOW received by a buyer, its Directors/Mandates/Operational staff shall and will be REJECTED, that does not have fully verifiable POP in the form of Tank Receipts/ FULL SGS report and not just the back page. This will also include in the buying procedure the ability to perform a FULL DIP TEST on the product for bank verification.
- 2) Any offer received or presented that requires a NCNDA/IMFPA ahead of any POP shall and will be REJECTED
- 3) It is the responsibility of the receiver on behalf of a buyer to make sure that the offer fits the operating procedures of the buyer, THERE WILL BE NO EXCEPTIONS TO THIS PROCEDURE

GIA Reports - New Format

About The New Format

Beginning January 2014, GIA's benchmark laboratory reports will have a new look. They'll contain the same trusted grading and identification data in an easier-to-read format. The reports will also contain enhanced security features and unique QR codes providing direct access to Report Check for quick report verification. The new reports consume less paper and other materials to help clients reduce their storage and postage costs.

Exchanging Reports for the Revised Format

The introduction of the revised format will not affect the validity of previously issued reports. If you'd still like to exchange your current report for one in the new format, GIA's Reissue Program offers a cost-effective way to do so.

Reports Qualifying for Reissue: Any prior version report dated on or after January 1, 2013. Reports dated prior to January 1, 2013 are subject to the standard update service and fees,

Reissue Fees:

Reports dated January 1, 2013 to June 30, 2013: \$10 USD for Dossier; \$15 USD for all other reports, Reports dated July 1, 2013 to December 31, 2013: No Charge

All requests for reissues at these special rates must be submitted by December 31, 2014, otherwise regular Update Service and corresponding fees apply.

How the Reissue Program works:

- Complete a Reissue Request form and submit along with your current report to any GIA laboratory or intake location worldwide
- You do not need to resubmit your gemstones
- Free shipping and handling
- Please allow up to 10 business days to process after report are received
- Reports issued in new format will carry the date of the original report
- If payment is required, you will be invoiced in the local currency of the lab where you submitted
- Reissue program expires December 31, 2014

Gold & Diamond

FE Diamond News Diamonds, from Pits to Depths

www.femagazine.co.uk

Several international mining corporations have established regional headquarters in Botswana and are looking for diamonds, uranium, gold and oil. Many have come back with positive results. Galane Gold Ltd announced that it has kicked off its first ore exploration from Tau underground in the northern part of the country.

Galane Gold or GG is a Toronto-based investment firm, an unhedged gold producer and explorer acting in mining operation and exploration in the Republic of Botswana. It is a publicly traded company which is listed on both the TSX Venture Exchange and the Botswana Stock Exchange. Galane Gold has already had several extensive exhibitions in the management of mining and exploring programs.

"This gold exploration is an expected evolution in order to improve the company's performance," GG said. The firm contributes with senior professional employees, who are committed to respect the environment and the communities in which they work.

At the beginning, GG didn't have the intention to pursue the resource of gold in Tau through underground mining. It started the project in the fourth quarter of 2013 and has finished its forced portal entry at the bottom of the existing Tau pit and the installation of the entire infrastructure required for the exploration. The company has put a graphical presentation of the detailed mining plan on the reported resource to mine about 85,000 ounces of gold over the next three years.

Ravi Sood, the Chief executive officer of Galane Gold, stated, "This project is a major step in the evolution of the company both with regards to a change from open pit mining to underground mining and our plans to extend mine life through further exploration." He then added, "We have completed this project within six months and from our own operating cash-flows is a testament to the experienced management team that we have put in place."

Botswana is ranked as the best investment jurisdiction in Africa, according to World Bank Global Investment Benchmarking Report. According to the Fraser Institute Global survey of Mining Companies best African mining jurisdiction and the seventh best mining country globally. It also has a strong economic environment. In fact, Botswana is regarded as the best mining country in Africa. It has political stability and strong GDP growth. Its status as an English speaking country is why Multinational firms such as Galane Gold can operate on its ground. The Australian firm, Gallery Gold, however, has also its entire exploration of Gold in the country. The company's most prospect exploration was the Mupane Gold Mine which officially opened in February 2005, will produce approximately 100,000 ounces of gold per year. Apart from that, Botswana is an emerging mining powerhouse.

FEM gets it rights about the Gold Titans

Gold price rigging fears put investors on alert

Global gold prices may have been manipulated on 50 per cent of occasions between January 2010 and December 2013, according to analysis by Fideres, a consultancy.

The findings come amid a probe by German and UK regulators into alleged manipulation of the gold price, which is set twice a day by Deutsche Bank, HSBC, Barclays, Bank of Nova Scotia and Societal Générale in a process known as the "London gold fixing".

Fideres' research found the gold price frequently climbs (or falls) once a twice-daily conference call between the five banks begins, peaks (or troughs) almost exactly as the call ends and then experiences a sharp reversal, a pattern it alleged may be evidence of "collusive behaviour".

"[This] is indicative of panel banks pushing the gold price upwards on the basis of a strategy that was likely predetermined before the start of the call in order to benefit their existing positions or pending orders," Fideres concluded.

"The behaviour of the gold price is very suspicious in 50 per cent of cases. This is not something you would expect to see if you take into account normal market factors," said Alberto Thomas, a partner at Fideres.

Alasdair Macleod, head of research at GoldMoney, a dealer in physical gold, added: "When the banks fix the price, the advantage they have is that they know what orders they have in the pocket. There is a possibility that they are gaming the system."

Pension funds, hedge funds, commodity trading advisers and futures traders are most likely to have suffered losses as a result, according to Mr Thomas, who said that many of these groups were "definitely ready" to file lawsuits.

Daniel Brockett, a partner at law firm Quinn Emanuel, also said he had spoken to several investors concerned about potential losses.

Commodity Trivia

Oil Quiz – Test Your Knowledge

(A) What's the best speed to drive on a highway for optimum fuel efficiency?

- ☐ 55
- ☐ 65
- ☐ 60
- ☐ 70

(B) Which is NOT a website that provides information on gas prices?

- ☐ GasBuddy.com
- ☐ GasPriceWatch.com
- ☐ AltFuelPrices.com
- ☐ They all provide information on gas prices

(C) Accelerating and braking quickly can reduce fuel efficiency by how many miles per gallon?

- ☐ 1 mile
- ☐ 2 miles
- ☐ 3 miles
- ☐ 4 miles

(D) Which is a gas-saving myth?

- ☐ Buying gas in the morning when temperatures are cooler gets you a denser, better quality of fuel.
- ☐ Properly inflated tires can help your gas mileage.
- ☐ Not following your car's maintenance guidelines can decrease your gas mileage.
- ☐ Using an incorrect weight of motor oil can affect your gas mileage.

(E) For every 100 extra pounds it carries, your car:

- ☐ Can lose 1 to 2 percent of fuel efficiency.
- ☐ Will pay more in tolls.
- ☐ Will have uneven tire wear.
- ☐ None of the above. Check Answer

For all these answers please go to FE Magazine Website: www.femagazine.co.uk

Commodity Trivia

Oil Quiz – Test Your Knowledge

(F) In the USA what are some the perks that owners of hybrid or electric cars can receive?

- ☐ A state income tax credit.
- ☐ Access to carpool lanes on certain state roads and highways.
- ☐ Free parking in some cities.
- ☐ All of the above

(G) Some websites can help estimate the fuel costs of your trip if you enter in:

- ☐ Your starting point and destination plus the make, model and year of your car.
- ☐ How much money you can afford to spend on gas.
- ☐ How long you will be driving.
- ☐ The average speed you will be driving during your trip.

(H) If you let your car idle for two minutes:

- ☐ You will overheat your engine.
- ☐ You will use as much fuel as you would as if you drove one mile.
- ☐ You will use gas in your reserve tank.
- ☐ You will damage your clutch if you have a manual transmission.

(I) In 2009, which age group was the largest purchaser of hybrid vehicles?

- ☐ Ages 16 to 17
- ☐ Ages 18 to 44
- ☐ Ages 55 to 74
- ☐ Age 75 and older

(J) Which car maintenance checks or features can help with your gas mileage?

- ☐ Keeping gas cap tightened
- ☐ Cruise control
- ☐ Manual transmissions (stick shifts)
- ☐ All of the above

Kronkron Lands

Who is Kronkron Lands

Precious Real Estates Company Ltd. is an organ of Precious Group of Companies specializing in land and real-estate brokering and management. Currently, Precious GOC has a prime real-estate covering several plots of lands labelled "Precious Lands" located near Accra – the capital of Ghana.

Deciding to buy a land is a big decision that requires careful consideration. Buying any property has long-term financial implications and you need to make sure that if you are also buying with a mortgage, you set yourself a realistic purchasing budget which would be comfortable to meet every month taking your other financial outgoings.

URGENT **WARNING** FOR ALL BUYER AND SELLER/BROKERS

This should be the most important information released in the commodity industry, where the severity of this warning should make everyone realize the most serious impact that pertains in Oil and other commodities transactions.

FEM is happy to release this very important message to anyone involved in the commodities industry concerning the new measures with respect to all Buyers and Sellers conducting business' transactions around the globe.

From now on, if an **ICPO**, **LOI**, **RWA**, or **BCL** is issued and the document is not real, true and/or actually verifiably factual, the Buyer will be able to inform the **FBI**, **ICC**, and **INTERPOL**. In addition, after an **FCO** is sent to the Buyer, there should be a formal answer to Seller from Buyer in a timely manner in accordance with the agreement between parties.

If there is no response from the Buyer in a timely manner, the buying company will be reported to the **FBI**, **ICC** and **INTERPOL**. If this action is repeated by sellers, they too will also be reported for abuse of the **NCND**, **LOI**, **ICPO**, **AND RWA OR BCL**, **FOR THIS IS NOW A FEDERAL OFFENSE**.

It is important to transmit this to all clients that work with providers that are members of the **ICC**, **FBI**, and other international organizations. From this point forward, the international codes will be strictly enforced to exclude all intruders that send or transmit false information. Those who submit a false **NCND/IMFPA**, **LOI**, **ICPO**, **RWA** or **BCL**, or **FCO**, as well as **FALSE PROOF OF PRODUCT (POP)**, **FALSE PROOF OF FUNDS (POF)** **WILL BE CHARGED WITH A CRIME**.

This offense went into effect on November 15, 2008 and re-effected in June 2013 after a meeting was held between the Federal Reserve, European Central Bank, Interpol, Federal Bureau of Investigation and Central Intelligence Agency.

The reason for this measurement is to protect the commodities industry which is a fundamental part of the world's economy.

The Non-Circumvention, Non-Disclosure & Working Agreement (**NCNDA&IMFPA**) we signed and it stated: **WARNING**:

This should be the most important information released in the commodity industry for years where the severity of this warning should make everyone realize the serious impact that pertains in all oil and other commodities transactions.

Scammer of the Month

No 1 **WANTED** PATRIZIO PILATI

WANTED and Captured by FE Magazine

First Edge has a full book on him for:
Fraud, using other companies to obtain credit.
(this man is a very good liar be very careful)

FE Magazine cannot reveal This Scammer
Full ID due to Legal Reason's
If found Guilty we will Publish his full Details

Subject: Patrizio Pilati
To: asrtech1981@gmail.com

He is now operating under a company from Dubai, and Australia with A Partner by name Of Alan the Company goes by the call letter NTR Nexus Technologies & Resources

Good Day Sir,

I have just come across your website and I wish I had known about it 3 weeks ago. The snake that that man is, is unbelievable.

He has cost me just over \$12 000 in flights, accommodation, food and sorts.

US releases IS oil strike images

The Pentagon releases footage and still photos of its air strikes on oil refineries controlled by Islamic State militants in eastern Syria.

Sierra Leone widens Ebola quarantine

Sierra Leone's President Ernest Bai Koroma widens a quarantine to include another one million people in an effort to curb the spread of Ebola.

Ukraine crisis: Thousands march in Moscow anti-war rally

Thousands of people have marched in Moscow to protest against Russia's involvement in the Ukraine conflict. People carrying Russian and Ukrainian flags chanted "No to war!" and "Stop lying!" Similar rallies took place in St Petersburg and other Russian cities.

US attorney general Holder to resign

The US Attorney General, Eric Holder, is to announce his resignation, White House officials have confirmed.

Al Pacino honoured at British Film Institute

Hollywood star Al Pacino said he was "overwhelmed" after being made a fellow of the British Film Institute (BFI).

(See Matthew 14:14-21)

08-13-20

YES I COULD MAKE FIVE THOUSAND OF THOSE,
BUT A FEW FISH AND SOME BREAD MIGHT BE A
BETTER OPTION

“If you owe the
bank \$100 that's
your problem.
If **you** owe the
bank \$100 **million**,
that's the **bank's**
problem.”

I take it
you haven't
had sex
for a while

Listening to wife is like reading
the terms & conditions of website.
You understand nothing, still you
say

"I Agree"

"Oh, sure they're nice,
but are they real?"

"My doctor told me to avoid any unnecessary stress, so I didn't open his bill."

"I MET SOMEONE WONDERFUL IN A CHAT ROOM...
AND THEN I FOUND OUT SHE'S A CAT!"

"No, I'm not part of an elaborate kickback scheme."

My bank has a new service where they will text you your balance. It's cool, I just don't think they should add "LOL" at the end.

At the bank, I told the cashier, "I'd like to open a joint account please."
"OK, with whom?"
"Whoever has lots of money."

A BAD
ATTITUDE IS LIKE
A FLAT TIRE..
IF YOU DON'T
CHANGE IT..
YOU'LL NEVER
Achieve Goals / Facebook
GO ANYWHERE..💔

I'm
only responsible
for what
I Say
not for
What you
Understand

My teacher pointed me with his ruler and said: "At the end of this ruler there's an idiot!"

I got detention after asking *which* end.

"FRIENDSHIP IS LIKE A BANK ACCOUNT. YOU CAN'T CONTINUE TO DRAW ON IT WITHOUT MAKING DEPOSITS."

“Difference between school and life: School teaches you lessons and then gives you a test. Life gives you a test and you learn the lessons”

LIFE BEFORE THE COMPUTER

- * Memory was something that you lost with age
- * An application was for employment
- * A program was a TV show
- * A cursor used profanity
- * A keyboard was a piano
- * A web was a spider's home
- * A virus was the flu
- * A CD was a bank account
- * A hard drive was a long trip on the road
- * A mouse pad was where a mouse lived
- * And if you had a 3 1/2 inch floppy ...you just hoped nobody found out

I've decided I'm not going to focus on my past anymore. So if I owe you **money...** I'm very sorry.
